

PROJECT FLOW

Date	19 November 2022
Team ID	PNT2022TMID15265
Project Name	Visualizing and Predicting Heart Diseases with an Interactive Dash Board

IBM CLOUD ACCOUNT

The screenshot displays the IBM Cloud Dashboard interface. At the top, the navigation bar includes the IBM Cloud logo, a search bar, and links for Catalog, Manage, and the user's account (Logeshwaran Y.S.). The main content area is titled 'Dashboard' and features a 'For you' section with five recommended actions: 'Build' (Explore IBM Cloud with this selection of easy starter tutorials and services), 'Build a web app with Watson Speech to Text' (Deploy a conversational interface compatible with any application, device, or channel), 'Get Started with Watson Studio' (Get started with using AI and Cloud Object Storage in 15 minutes), 'Build a Virtual Private Cloud (VPC)' (Upgrade to a paid account to create your own protected space in the IBM Cloud), and 'Learn about IAM Roles' (Learn about roles in IBM Cloud and how they work to control access). Each action card includes a 'Getting started' button and a duration (15 min, 2 hr, 7 min, 5 min, 7 min). The bottom section contains four tiles: 'News' (IBM Named a Leader in Gartner Magic Quadrant for Full Life Cycle API Management, IBM to Introduce a New Incident Management SaaS Offering, IBM Cloud Satellite New Pricing), 'Recent support cases', 'Planned maintenance', and 'IBM Cloud status' (View all). The right sidebar shows the user's profile (Logeshwaran Y.S.) and options for Profile, Log in to CLI and API, Privacy, Change theme, and Log out.
